Prior to examination of the above-captioned patent application, kindly enter the following amendment.

Kindly replace Claim 4, and add new Claims 4 and 5, as follows.

4. The image processing apparatus according to claim 1, wherein every N pixel from a pixel at an edge of the image in a predetermined direction within the image is the pixel defined in the first condition, and a pixel which exists on a straight line including the target pixel extending in the predetermined direction and which is positioned within a predetermined range from the target pixel is the pixel defined in the second condition.

5. The image processing apparatus according to claim 1, wherein the storage unit stores a third condition defining a position relative to the target pixel in a predetermined
